

Inachee (**noun**) [In-a-chee-]: Home Grown Energy in Motion.

# We are looking for you!

**Hello!\***

**You are:**

- 1) An accounting professional.** Preferably qualified (ACCA, CPA etc). You alternatively are an accounting student studying B.COM or BBA.
- 2) A research professional.** You have majored in a statistical degree or equivalent course and have experience in conducting business research. Having a journalism background/experience is an added advantage.

We want to work with you.

## **What we represent**

We are an ethical thought leadership firm that provides advisory for clients in Uganda and Sub Saharan Africa.

We are relentlessly focused on helping Ugandans looking to start in business or already in business to succeed.

But to do this, we can not go it alone. We are therefore always looking for highly motivated individuals who are not afraid to think and ask. Individuals who are team workers, keen to learn/develop and can work under minimum supervision and of course are ethical (we like the truth, it sets you free).

## **What we do**

We target three groups of business persons in Uganda.

- **Small and Medium Sized Enterprises (SMEs).** SMEs employ the majority of Ugandans. The typical Ugandan entrepreneur has a big dream and is passionate to succeed. Unfortunately they cannot sometime afford the quality of professional or business advisor they require. We help in this aspect. We have been fortunate to get top notch experience and we would like to “give something back”.
- **Lenders to SMEs.** A significant issue in Uganda is access to financing and of course a lot of lenders are friends, family or other private lenders who sometimes need assurance that the person being lent to is really saying what they mean in other words that their business plan is not “hot air”.
- **Entities/individuals requiring business plans.** We prepare and review business plans.

You can of course read more about us and our type of work on the website: [www.inachee.com](http://www.inachee.com)

## Who we are looking for

- Students almost completing their accounting exams at the University (B.COM, BBA, B.STAT)
- Free lance accounting professionals who have flexibility to work with us. You could have more than 3 years experience or even own your own firm. As long as you the flexibility to work with us, we are happy to hear from you.

In addition to the above:

- **Language skills.** We expect you to have an excellent command of English (both written and spoken). Our work involves detailed report writing and communication with clients, including international clients. An additional language such as Swahili will be to your advantage.
- **Good Computer skills** cannot be over emphasized. We are always collaborating online and using new age technologies. In addition we work heavily with tools such as MS Excel and Word.

## Next steps

If you think you can work with us. Please drop us an email together with your CV. In your cover e-mail, please tell us:

1. Why you believe you are best suited to working with us. This may include your experience with our type of target client.
2. Examples of cases where you have applied “thinking outside the box” to find solutions. This could be at school, at work, at your charity. It is really not limited.
3. What key skills you believe we should be aware of that might not be obvious on your CV.

## Please send your information to:
